

NOV 11 1968

I am preparing a short article on this subject  
and will send a copy in a week or two.

of Medicine  
Stanford, California

Dear Dr. Lederberg:

I am writing to you to procure an unbiased, strictly  
medical view of the effects of LSD use on the reproductive  
systems. Information on this subject as published in the  
news media is highly contradictory and editorial in nature.  
I appeal to you as a prominent authority on genetics for the  
information obtained through laboratory work without un-  
substantiated projections or moralizing. As managing editor  
of the Ladera "B" newspaper, I feel that my readers need  
to know the unadulterated facts and can then form their  
own conclusions. I appeal to you as a man of science and  
will eagerly await your data.

Sincerely yours,

Tim Douglas  
Managing Editor

P.S. The "unadulterated facts" are quite  
technical: do you just want me to send you  
a list of literature references? I will do  
my best to make a measured, objective inter-  
pretation of a confusing and incomplete  
set of experimental data.
